PROFESSIONAL SUMMARY

Cyber Security BSc graduate (2:1, 69%) with practical experience supporting DevOps and security tasks, troubleshooting Windows/Linux environments, and building Python diagnostic tools. Background in web development, QA, networking and explaining technical concepts to others. Seeking a remote entry-level IT support, application support, technical operations or junior security role.

TECHNICAL SKILLS

IT & systems: Windows, Linux, fault diagnosis, software debugging, technical documentation, user support
Networking & security: TCP/IP, DNS, VPNs, routing fundamentals, Cisco Packet Tracer, configuration reviews
Tools & development: Python, Git/GitHub, Docker, Tailscale, SQL, HTML, CSS, JavaScript, Pandas/Excel
Testing: Manual QA, issue reproduction, regression tests, fuzz and concurrency testing

RELEVANT EXPERIENCE

Cybersecurity / DevOps Project Assistant (Volunteer) | Roberth Cazan SRL | Nov 2023 - Aug 2026

- Supported a DevOps engineer on security-related troubleshooting, configuration reviews and networking tasks.
- Assisted with Linux environments and technical documentation while learning infrastructure and security practices.

Web Developer | Valu Tints | 2026

- Built a business website with clear service information and customer contact flow; refined layout from feedback.
- Tested responsiveness across screen sizes and fixed presentation issues. valutints.co.uk

Web Developer Assistant (Work Placement) | ExcellOne Technologies Ltd

- Supported client websites using HTML, CSS and JavaScript; assisted with debugging, QA checks and documentation.

Peer Assisted Learning (PAL) Leader | Buckinghamshire New University | During degree

- Helped fellow students with computing topics through one-to-one and group sessions; explained technical concepts clearly.

SELECTED TECHNICAL PROJECTS

Tibs Diagnostic Toolkit | Python | Sep 2026

- Created a cross-platform command-line tool for Windows, Linux and Android/Termux to automate first-line system and network checks.
- Added DNS, gateway, latency and packet-loss checks; validated behaviour with 25 regression tests plus fuzz and concurrency testing. GitHub project

Private Cloud Dissertation | Docker, Nextcloud, Tailscale | 2026

- Deployed a self-hosted private-cloud environment and secured remote access with Tailscale; documented setup and use.

EDUCATION & LANGUAGES

BSc Cyber Security, Upper Second-Class Honours (2:1, 69%) | Buckinghamshire New University | 2026
T-Level Digital Production, Design and Development | Bucks College Group | 2023
Languages: Romanian (native), English (fluent), Spanish (conversational), European Portuguese (basic)
